HOW YOU CAN HELP!

Donations and volunteers are critical to our success!

Here's how you can help:

- Make a tax-deductible financial donation to New Eyes (100% of individual donations purchase new eyeglasses)
- Sponsor a New Eyes fundraising event
- Donate your eyeglasses and/or conduct a used eyeglasses collection in your community or company
- Volunteer at our Short Hills, NJ location
- Donate jewelry, watches or small decorative items for our Resale Shop and hearing aids for our recycling program

glasses for those in need

GIVE POWER GIVE SIGHT

NEW EYES FOR THE NEEDY EMPOWERS CHILDREN AND ADULTS IN THE U.S. AND WORLDWIDE THROUGH IMPROVED VISION.

Our Voucher Program Provides New Glasses to U.S. Residents

Working with social service agencies, New Eyes provides prescription eyeglasses to children and adults in financial need living in all 50 states.

The simple yet critical tool of eyeglasses allows children to succeed in school, adults to find employment and seniors to live more safely and independently. The average cost to New Eyes is just $22 to provide a new pair of high quality eyeglasses to someone in need thanks to special partnerships within the optical industry.

Since 1932, New Eyes has provided new eyeglasses to over 420,000 disadvantaged individuals living in the United States.

Our Overseas Program Distributes Used Glasses Worldwide

New Eyes collects, sorts and distributes donated glasses overseas in developing countries through international charitable organizations and small medical missions.

Our partners include Feed the Children, Physicians for Peace, the Treeland Foundation, individual eye doctors and civic, religious and student groups.

New Eyes has shipped over 8 million used glasses to the world's neediest people in over 80 countries, most times providing them with the first and only pair of glasses they will ever own.

"When my grandfather got glasses for the first time, the world really opened up for him. That's why he always donated his old frames to New Eyes. And he made sure I sent my old glasses to New Eyes. Now I'm a huge supporter because New Eyes helps change the world in making sure everyone gets the chance to see."

- Jake Gyllenhaal, Actor & New Eyes Advocate

New Eye Changes Lives Through the Gift of Clear Vision

The New eyes glasses will make a difference in my life because I will see so much better. my education will improve, because without glasses I couldn't read an write well. I will be able to see far away. I will be able to play without tripping Also I want to let you know that I'm so happy an thank's for helping me to change my future
